

Service Plans

If you have not done so already, have you thought about taking out a Peugeot Service Plan? Service Plans are the perfect way to spread and inflation proof the cost of servicing.

Speak to one of our Customer Advisers for more information and pricing.

Your Service Information

When you take delivery of your new vehicle, your Peugeot Dealer will discuss a few points with you so that you understand the service interval your vehicle is on and when you should plan to get your servicing done.

What Service Interval is your vehicle on?
e.g: 1 year / 10,000 miles,
2 years / 20,000 miles, 2 years / 12,500 miles

A:

What is your projected annual mileage?

A:

Recommended
next type of service and date:
e.g: Interim or Routine

Servicing your Peugeot

As an owner of a Peugeot vehicle you will want to keep it looking and driving at its best. Regular servicing is the way to ensure that your Peugeot remains in tip-top condition.

It's important to us that you and your car receive the highest level of care and service and as no-one knows Peugeots better than us, we are in the best position to carry out all your servicing requirements.

The Peugeot Service Products

Peugeot has a full Service product range to suit every Peugeot driver's needs (whatever the age or mileage of your Peugeot vehicle). The Service products available are:

4-6 Week Free Check

Designed to ensure you're getting the best from your new Peugeot, this while-you-wait inspection is the perfect opportunity to tell us about any concerns you may have or if you're not sure how something works. It's also a chance for our technicians to make sure that everything is working properly.

Interim Service

If you're on a 2 year service interval (your Dealer can advise if you are unsure), Peugeot recommend that your vehicle is taken to a Peugeot Dealer for an Interim Service between each of your scheduled Routine Services.

Unlike the Routine Service, the Interim Service is not tailored to the exact age and mileage of your vehicle. It is a comprehensive check to ensure that your vehicle remains at optimal efficiency between Routine services. Providing you with peace of mind that your vehicle is safe and reliable.

What is included in the Interim Service:

- A check and top-up of all fluid levels
- In depth safety inspection (brakes, steering etc)
- Visual checks of your tyres, lights, indicators, mirrors and wiper blades
- An environmental check (pollen filter check, exhaust check)
- Reading of the fault memory codes to diagnose any outstanding upgrades
- Engine oil and filter change to improve fuel consumption and lower emissions

Scheduled Routine Service

The scheduled Routine or Premier service is specifically tailored to your Peugeot when it reaches a certain age or mileage.

Most Peugeot vehicles are on 2 year Routine Service Intervals, with the exception of 107 & 4007. Therefore your first Routine Service comes either after two years or a set number of miles (whichever comes first).

As well as a comprehensive check of your vehicle there are some additional operations that will be carried out during your Routine Service. These will depend on the age and mileage of the vehicle and are essential for the correct functioning of the vehicle. Please refer to your Peugeot Warranty and Maintenance Handbook for details of these.

In addition, all Routine Services include:

- Optional courtesy car or collection and delivery*
- A full Vehicle Health Check, as part of our Duty of Care

*Your local Dealer will advise of any additional costs at time of booking.

Arduous Service

If one or more of the following arduous conditions of vehicle use apply to you, you must follow the Arduous Service Regime as your vehicle needs to be checked more frequently, with certain mechanical operations required earlier than on the Routine Service Schedule.

- Continuous door to door use (e.g. courier driver, taxi)
- Urban use (e.g. as a taxi, ambulance with average speed below 12mph)
- Repeated short journeys (below 6 miles in distance) with cold engine (after stopping over 1 hour)
- Extended use in:
 - Hot countries with temperatures above 30 degrees
 - Cold countries with temperatures below -15 degrees
 - Dusty countries
- Use of Bio-Diesel fuel
- 1.6 HDi 110 engine with a monthly mileage of 2,500 miles or higher

Please speak to one of our Customer Advisers to determine if you fall into the Arduous use category.

Remember that during the vehicle's warranty period, it is compulsory to have the scheduled Routine Service or Arduous Service (if applicable) carried out as stipulated in the Peugeot Warranty and Maintenance Handbook or it may lead to your warranty becoming invalid.

Year 3 - MOT and Service

Your first MOT will be due at year 3 as well as your recommended Interim or Routine Service, and what makes better sense than to take your vehicle to the people who know it best – your local Peugeot Dealer. Not only will they look after your vehicle as if it were their own, but you'll also benefit from their technical expertise.

Year 4 - MOT and Service

Depending on your annual mileage, as well as an MOT (Pre-MOT check in Northern Ireland), your vehicle will need a service at four years. At this service you can opt for the Routine Service Package with its additional premier benefits or, at participating Dealers, our Value Service aimed specifically at Peugeot vehicles 4 years and older.

For more information and pricing on all our service and MOT products speak to one of our Customer Advisers.
